**Ann & Robert H. Lurie Children's Hospital of Chicago** is proud to present its 2019–2020 continuing medical education series. Sponsored by Northwestern University Feinberg School of Medicine and Lurie Children's, our one-day seminars offer timely, practical advice from pediatric specialists and allow physicians to earn continuing medical education credits.

**Pediatric Pearls Infectious Diseases** is the second course in the 2019–2020 CME series and is a timely one-day symposium with lectures on a variety of infectious diseases and conditions. Designed for pediatricians and family practitioners, this symposium will address the measles vaccine, recurrent UTIs, the flu, pneumonia, HIV, viral hepatitis, bone/joint infections and how to best address vaccine hesitancy.

Once again, Lurie Children's is offering a discounted rate to physicians and practices that pre-purchase our packages. By purchasing a package, you save money and secure your spot at the conference. All spots purchased are transferable and for your convenience, we will continue to sell these courses on an individual basis.

For more information regarding this course or any other course being offered, please call Catalina Denari, at 312.227.7411.
