Northwestern Medicine's IBD Masterclass CME Symposium

COURSE DIRECTORS: Parambir S. Dulai, MD and Eugene F. Yen, MD, MBA, FACP, AGAF

Inflammatory Bowel Disease (IBD) is a chronic disorder of the intestinal tract affecting an estimated 1.4 million Americans. Over the past decade, the field of IBD has changed dramatically. We are excited to welcome you to our high-level program offering participants the opportunity to hear from expert clinician leaders from the Northwestern Medicine Digestive Health Center on the multiple therapeutic options available to treat inflammatory bowel disease (IBD).

PROGRAM OBJECTIVES

After attending this educational activity, participants should be able to:

1. Identify and discuss new advances in IBD treatment.
2. Review the current standard of care for Crohn's disease and ulcerative colitis and discuss new recommendations for care.
3. Explain perioperative management from a nutrition and medication perspective.
4. Utilize appropriate therapy options for IBD patients.
