

This three-day program, dissection lab, and hands-on imaging workshop will be held at Lurie Children's Hospital, Chicago, Illinois. **Live in-person registration will be limited to 50 attendees.** An option for the lecture-only component will be available via livestream (the dissection lab and hands-on workshop is only available with in-person registration).

Ann & Robert H. Lurie Children's Hospital of Chicago Heart Center presents

Chicago 3D Echo Academy 2023

Acquisition and Application of 3D Imaging in Congenital Heart Disease with Dissection Lab and Hands-on Scanning Workshop

May 19–21, 2023

TARGET AUDIENCE AND COURSE OBJECTIVES

This course is designed for adult and pediatric cardiac sonographers, fellows in training, pediatric and adult cardiologists and sonography students embarking on a career in pediatric cardiac sonography. Participants should have a basic understanding of echocardiography. Upon conclusion of this educational meeting attendees should have improved their ability to:

- Recognize echocardiographic features of various congenital heart abnormalities
- Identify surgical repairs and/or palliations for the covered congenital cardiac lesions
- Apply anatomic knowledge to the performance and/or interpretation of echocardiograms in adult patients presenting with congenital heart defects
- Comprehend the limitations of echocardiography and the need for multi-modality imaging
- Incorporate discussed imaging techniques to assess congenital heart lesions into daily practice
