GENERAL INFORMATION

Ann & Robert H. Lurie Children's Hospital of Chicago is once again pleased to present a series where you can connect with our experts and earn CME credit. This series will include two in-person events with the remaining three events offered virtually.

Each of the five programs offer continuing medical education credit and will include evidence-based sessions, an opportunity for interactive Q&A and timely medical updates most relevant to your practice and patients.

The pricing is distinguished by the type of event. Discounted series packages are also offered and attendees can save as much as 10% of the total price.

Each course will carry between **4.50 AMA PRA Category 1 Credit(s)TM** and **7 AMA PRA Category 1 Credit(s)TM**.

Details about each full-day course, the presenters and registration are included in this catalog as well as on our website at luriechildrens.org/pearls. Participants attending the virtual events will need to access Zoom. Information regarding access, login and technical specifications will be sent to each registrant before the event.

The live, in-person events will not be live-streamed or recorded. You must attend in person to earn credit. Also new this year is a strict no-refund policy unless the request is received seven days prior to the event. Consideration will be given to emergency situations and a credit for a future event will be offered.

This program is sponsored by Northwestern University Feinberg School of Medicine and presented by the faculty of Lurie Children's.

Don't miss this opportunity to earn CME credits, network with your colleagues and gain a wealth of practical information on cutting-edge pediatric health topics.

For questions or more information, call **312.227.7411** or e-mail svcardona@luriechildrens.org or cpinto@luriechildrens.org.

ACCREDITATION STATEMENT

The Northwestern University Feinberg School of Medicine is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

AMERICAN BOARD OF SURGERY ACCREDITED CME AND SELF-ASSESSMENT

Successful completion of this CME activity, which includes participation in the evaluation component, enables the learner to earn credit toward the CME and Self-Assessment requirements of the American Board of Surgery's Continuous Certification program. It is the CME activity provider's responsibility to submit learner completion information to the ACCME for the purpose of granting ABS credits.

DESIGNATION STATEMENT

The Northwestern University Feinberg School of Medicine designates this live activity for a maximum of **28 AMA PRA Category 1 Credit(s)TM**. Physicians should only claim credit commensurate with the extent of their participation in the activity.

Please refer to each program for the breakdown of CME hours.

**Looking for
other opportunities
to earn CME?**

**Visit luriechildrens.org/cme
for a complete listing
of our online CMEs as
well as live and on-demand
webinars which are always
free of charge.**

Pediatric Pearls: Fall

IN-PERSON Event

WEDNESDAY, NOVEMBER 20, 2024

Register by November 10, 2024

If considering the purchase of a package, registration is due November 10, 2024.

DoubleTree Hotel

1909 Spring Road • Oak Brook, IL 60523 • 847.472.6000 • FREE PARKING

This one-day symposium for pediatricians, family physicians and other healthcare providers will showcase the latest approach, updates and research related to several common patient issues confronted by primary care providers. Our speakers will address health concerns, share cases and offer guidelines on how to manage the patient. We are excited to present lectures on building trauma-informed frameworks, tongue ties, breastfeeding problems, neonatal hyperbilirubinemia, trauma-informed care for displaced children, vaccinations, GERD in infants, head shape abnormalities, infections in newborns and meeting infancy milestones.

6 AMA PRA Category 1 Credit(s)[™]

This course is approved for live credit only. It will not be streamed or recorded.

Cancellation and refunds offered with a minimum seven-day advanced notice.

AGENDA

TIME	TITLE/TOPIC	SPEAKER
8 a.m.	Welcome	Ravi Jhaveri, MD Alanna Higgins Joyce, MD, MPH
8:15–8:45 a.m.	The Latest Products for Babies	Lindsay Skibley, MD
8:45–9:15 a.m.	Building Trauma-Informed Frameworks: The Work Continues	Tara Gill, PhD
9:15–9:45 a.m.	Dissecting Tongue Ties: To Clip or Not to Clip?	Diana Bohm, MS, CCC-SLP/L, BCS-S
9:45–10:15 a.m.	Mastering Milk: How to Troubleshoot the Eight Most Common Breastfeeding Problems	Nina Alfieri, MD, MS
10:15–10:30 a.m.	COFFEE BREAK	
10:30–11 a.m.	Neonatal Hyperbilirubinemia in 2024	Alanna Higgins Joyce, MD, MPH
11–11:30 a.m.	Trauma-Informed Care for Forcibly Displaced Children and Adolescents	Rebecca Ford-Paz, PhD
11:30 a.m.–Noon	What's New in Vaccinations for Children?	Ravi Jhaveri, MD
Noon–12:30 p.m.	A Multidisciplinary Approach to GERD-Like Symptoms in Infants	Mark Fishbein, MD
12:30–1:15 p.m.	LUNCH	
BREAKOUT SESSIONS: Pick one topic for each session		
SESSION A: 1:15–2:15 p.m.	Just A Heads Up: Approach to Head Shape Abnormalities	Noreen Pulte, APRN-NP, PNP Breanna Baltrusch, CPO/LPO Christine DiLuia, PT, DPT
SESSION B: 2:15–3:15 p.m.	A Day With the Infectious Diseases Pager: Common Calls About Infections and Newborns	Caitlin Li, MD
	Meeting the Milestones in Infancy and Beyond	Nicole Poupirt, MD

COURSE OBJECTIVES

The objectives listed below only include one highlight for each lecture. A complete list of objectives can be found on the registration page for this course.

- Review current epidemiology of vaccine-preventable illnesses in children
- Identify three ways to promote physical and psychological safety in pediatric settings for forcibly displaced young people
- Discuss the roles of the speech language pathologist and occupational therapist in evaluating infants with GERD-like symptoms
- Interpret test results to determine appropriate treatment strategies for infants with prenatal syphilis exposure
- Increase knowledge about building a trauma-informed framework in a healthcare setting
- Explain potential benefits and risks for tongue tie release
- Discuss the 2022 CDC/AAP update to developmental milestones and surveillance program
- List factors causing newborns to be at higher risk of jaundice and review the 2022 guideline revision
- Assess and address the eight most common breastfeeding challenges encountered in outpatient pediatric practice after hospital discharge
- Differentiate between plagiocephaly, brachycephaly and craniosynostosis
- Discuss which devices and exercises can help improve a baby's motor development and meet those milestones

Pediatric Pearls: Fall 2.0

VIRTUAL Event

THURSDAY, DECEMBER 5, 2024

Register by November 25, 2024

If considering the purchase of a package, registration is due November 10, 2024.

This lecture was originally scheduled for March 12, 2024. Due to Lurie Children's cyber security issues, it was rescheduled and renamed. If you already paid for this course, do not re-register. If you are interested in buying a package, please e-mail Stephanie Cardona or Claudia Cooper at svcardona@luriechildrens.org or cpinto@luriechildrens.org.

This one-day symposium for pediatricians, family physicians and other healthcare providers will showcase the latest approaches, updates and research related to several common patient issues confronted by primary care providers, as well as newer and more complex diseases. Our speakers will address health concerns, share cases and offer guidelines on how to manage the patient. We are excited to present lectures on bereavement support for children, eating disorders, health challenges in social media use, anemia and bleeding, firearm injury prevention and gender diverse youth.

5.25 AMA PRA Category 1 Credit(s)[™]

Cancellation and refunds offered with a minimum seven-day advanced notice.

AGENDA

TIME	TITLE/TOPIC	SPEAKER
8 a.m.	Welcome	Ravi Jhaveri, MD Alanna Higgins Joyce, MD, MPH
8:15–8:45 a.m.	Bereavement Support for Children	Talia Shear, MD Mallory Hilliard, LCSW, CADC
8:50–9:20 a.m.	Eating Disorders and Co-Occurring Diagnoses	Kelly Horn, LCSW, PhD
9:25–9:55 a.m.	Teens and Mean Screens: Health Challenges and Opportunities in Youth Social Media Use	Alyssa Cohen, MD, MSc
9:55–10:10 a.m.	INTERMISSION	
10:15–10:45 a.m.	From Anemia to Bleeding: What Would a Hematologist Recommend?	John Fargo, DO
10:50–11:20 a.m.	Beyond Thoughts and Prayers: An Evidence-Based Approach to Firearm Injury Prevention	Karen Sheehan, MD, MPH
11:25 a.m.–Noon	Supporting Gender Diverse Youth	Raina Voss, MD, MPH
Noon–12:45 p.m.	LUNCH	
BREAKOUT SESSIONS: Pick one topic for each session		
SESSION A: 12:45–1:30 p.m.	Case Studies on Eating Disorders	Kelly Horn, LCSW, PhD
	Case Studies on Anemia and Bleeding Disorders	John Fargo, DO
SESSION B: 1:45–2:30 p.m.	Inpatient Pediatric Potpourri – A Primer for Hospitalized Healthy Children's Most Common Concerns	Alanna Higgins Joyce, MD, MPH

COURSE OBJECTIVES

The objectives listed below only include one highlight for each lecture. A complete list of objectives can be found on the registration page for this course.

- Identify resources to support youth and families in navigating social media use
- Discuss the relationship between child development and grief experiences
- Describe the epidemiology of youth firearm injury in the United States and identify strategies to incorporate youth firearm injury prevention into your practice
- Describe the management and follow-up of iron deficiency anemia
- Describe the developmental processes of gender identity development among transgender and gender diverse youth
- Examine medical and psychological presentations of eating disorders and explore common co-occurring diagnoses
- Describe up-to-date recommendations for newborn jaundice including phototherapy and discharge follow-up parameters

Pediatric Pearls: Winter

VIRTUAL Event

WEDNESDAY, FEBRUARY 5, 2025

Register by: January 25, 2025

If considering the purchase of a package, registration is due November 10, 2024.

This half-day symposium for pediatricians, family physicians and other healthcare providers will showcase the latest approach, updates and research related to several common patient issues confronted by primary care providers, as well as newer and more complex diseases. Our speakers will address health concerns, share cases and offer guidelines on how to manage the patient. We are excited to present lectures on musculoskeletal pain, impact of early childhood experiences, autoimmune encephalitis, long COVID, celiac disease, lupus and juvenile idiopathic arthritis (JIA) and supplement use in the young athlete.

4.50 AMA PRA Category 1 Credit(s)[™]

This course is approved for the virtual participation credit. It will be recorded, and the videos will be available to the virtual conference participants approximately one week after the event. Credit will only be given to those registrants who attend the virtual meeting live. The recorded sessions are just an added benefit for those wanting to review the lectures.

Cancellation and refunds offered with a minimum seven-day advanced notice.

AGENDA

TIME	TITLE/TOPIC	SPEAKER
8 a.m.	Welcome	Ravi Jhaveri MD Alanna Higgins Joyce, MD, MPH
8:15–8:45 a.m.	Red Flags and Red Herrings: The Child with Musculoskeletal Pain	Angela Chun, MD
8:50–9:20 a.m.	What Happens in Early Childhood Does Not Stay in Early Childhood	Mariana Glusman, MD
9:25–9:55 a.m.	Pediatric Autoimmune Encephalitis	Kavita Thakkar, MD
9:55–10:10 a.m.	INTERMISSION	
10:15–10:45 a.m.	What Does Long COVID Look Like in Children and What Do We Do About It?	Ravi Jhaveri, MD
10:50–11:20 a.m.	From the PCP to GI: The Diagnostic Journey of Celiac Disease	Corrie Klepper, MD, MS
11:25–11:55 a.m.	Unmasking “The Wolf”: Advances in Childhood-Onset Systemic Lupus Erythematosus	Pooja Patel, DO
Noon–12:30 p.m.	Boosting Potential: Insights into Supplements for Young Athletes	Alec Bognar, MS, RD, LDN
12:35–12:45 p.m.	Closing Remarks/Final Questions	Course Director(s)

This course will not offer breakout sessions.

COURSE OBJECTIVES

The objectives listed below only include one highlight for each lecture. A complete list of objectives can be found on the registration page for this course.

- Review clinical manifestations of celiac disease and understand who and when to screen
- Define autoimmune encephalitis and differentiate it from other types of encephalitis
- Review current epidemiology and clinical manifestations of long COVID in children
- Describe the effects of toxic stress, adverse childhood experiences (ACEs) and Social Influencers of Health on children's long-term health and wellbeing
- Name five diagnoses that can mimic JIA
- Recognize clinical manifestations of systemic lupus erythematosus
- Review "popular" supplements that providers may hear about, their relevance and efficacy

Pediatric Pearls: Spring

VIRTUAL Event

THURSDAY, MARCH 20, 2025

Register by: March 10, 2025

If considering the purchase of a package, registration is due November 10, 2024.

This one-day symposium for pediatricians, family physicians and other healthcare providers will showcase the latest approach, updates and research related to several common patient issues confronted by primary care providers as well as newer and more complex diseases. Our speakers will address health concerns, share cases and offer guidelines on how to manage the patient. We are excited to present lectures on vaccine hesitancy, severe asthma, food allergies, cancer predisposition, abnormal bleeding and other menstrual disorders, eating disorders and treatments for adolescents, update on STDs, upper respiratory issues.

5.75 AMA PRA Category 1 Credit(s)[™]

This course is approved for the virtual participation credit. It will be recorded, and the videos will be available to the virtual conference participants approximately one week after the event. Credit will only be given to those registrants who attend the virtual meeting live. The recorded sessions are just an added benefit for those wanting to review the lectures.

Cancellation and refunds offered with a minimum seven-day advanced notice.

AGENDA

TIME	TITLE/TOPIC	SPEAKER
8 a.m.	Welcome	Ravi Jhaveri MD Alanna Higgins Joyce, MD, MPH
8:15–8:45 a.m.	Navigating Vaccine Hesitancy	Maheen Quadri, MD
8:50–9:20 a.m.	The Updated Asthma Management for the Primary Care Physician	Avani Shah, MD Danielle VanBeckum, MD
9:25–9:55 a.m.	What's New with Food Allergies: Prevalence, Prevention and Treatments	Ruchi Gupta, MD, MPH
9:55–10:10 a.m.	INTERMISSION	
10:15–10:45 a.m.	Cancer Predisposition	Joanna Weinstein, MD
10:50–11:20 a.m.	Abnormal Uterine Bleeding and Other Menstrual Disorders	Jessica Feuerstein, DO
11:25 a.m.–Noon	Eating Disorders and Treatment for Adolescents	Lance Nelson, MD, MS, MA
Noon–12.45 p.m.	LUNCH	
BREAKOUT SESSIONS: Pick one topic for each session		
SESSION A: 12:45–1:30 p.m.	Cases: Food Allergies and Other Sensitivities	Ruchi Gupta, MD, MPH
	Updates on STDs: Prevalence, Workup and Management	Jason LaFave, MD Kathryn Moton-Ospino, MD
SESSION B: 1:45–2:30 p.m.	Chronic Respiratory Issues: Wheeze, Cough and More	Avani Shah, MD Danielle VanBeckum, MD

COURSE OBJECTIVES

The objectives listed below only include one highlight for each lecture. A complete list of objectives can be found on the registration page for this course.

- Diagnose patients with anorexia nervosa restricting type, anorexia nervosa binge purge type, bulimia nervosa and avoidant restrictive food intake disorder (ARFID)
- Apply learnings from recent research to better adhere to prevention guidelines and explore treatment options to counsel families accordingly with accessible resources
- Identify patients with a genetic predisposition for developing malignant tumors
- Identify patients with a genetic predisposition for developing malignant tumors
- Outline the proper process and management of patients at an increased risk
- Describe current state of vaccine hesitancy including lessons from the COVID-19 pandemic
- Differentiate the etiologies of chronic cough and recurrent wheeze
- Review normal menstrual physiology and define abnormal uterine bleeding (AUB)

Pediatric Pearls: Developmental

IN-PERSON Event

FRIDAY, APRIL 11, 2025

Register by April 1, 2025

If considering the purchase of a package, registration is due November 10, 2024.

DoubleTree Hotel

1909 Spring Road • Oak Brook, IL 60523 • 847.472.6000 • FREE PARKING

This one-day symposium presented by Lurie Children's Division of Developmental and Behavioral Pediatrics is designed for pediatricians, family physicians and other healthcare providers. It will showcase the latest approach, updates and research related to several common patient issues confronted by primary care providers. Our speakers will address health concerns, share cases, and offer guidelines on how to manage the patient. We are excited to present lectures on developmental testing, autism (from diagnosis to feeding to insomnia and sleep issues, genetic evaluations and autism with epilepsy), family education in developmental disorders, accessing the EI system, treatment plans for developmental disabilities, neurodiversity in the clinical practice and dysregulated behavior and aggression.

7 AMA PRA Category 1 Credit(s)[™]

This course is approved for live credit only. It will not be streamed or recorded.

Cancellation and refunds offered with a minimum seven-day advanced notice.

AGENDA

TIME	TITLE/TOPIC	SPEAKER
8 a.m.	Welcome	Joshua B. Ewen, MD
8:15–8:45 a.m.	Primary Care Screening and Developmental Testing	Christine McGivney, DO Larry Gray, MD
8:45–9:15 a.m.	Autism Diagnosis in the Primary Care Office	Peter J. Smith, MD, MA
9:15–9:45 a.m.	Family Education in Developmental Disorders	Laura O'Halloran, PA-C Stacey Shaw, APRN Taylor Dent, APRN Zoe Lasky, APRN
9:45–10:15 a.m.	Accessing the EI System	Mary Kate Halvorson, MSN, RN-BC
10:15–10:35 a.m.	COFFEE BREAK	
10:35–11:05 a.m.	Designing Treatment Plans for Developmental Disabilities	Jennifer Carlson, PhD
11:05–11:35 a.m.	Helping Families Access Therapies and Appropriate School Options	Emily Mehta, LCSW Holly Raftery, LCSW
11:35 a.m.–12:05 p.m.	Neurodiversity in Clinical Practice	Yolanda F. Holler-Managan, MD
12:05–1:05 p.m.	LUNCH BREAK	
1:05–1:35 p.m.	Genetic Evaluation of Individuals with Intellectual Disability and Autism	Mindy H. Li, MD
1:35–2:05 p.m.	Autism and Epilepsy	Joshua B. Ewen, MD
2:05–2:35 p.m.	Managing Feeding Issues in Autistic Children	Mark H. Fishbein, MD
2:35–2:55 p.m.	COFFEE BREAK	
2:55–3:25 p.m.	Managing Insomnia and Sleep Disorders in Autism	Irina Trosman, MD Allison H. Clarke, PhD
3:25–3:55 p.m.	Assessment and Treatment of Dysregulated Behavior and Aggression in Pediatric Patients with Autism Spectrum	Jeanne Greenblatt, MD, MPH
3:55–4:25 p.m.	Identifying, Parsing and Treating Internalizing Symptoms	Lauren A. Pascarella, PhD

Medicine and Behavioral Health

COURSE OBJECTIVES

The objectives listed below only include one highlight for each lecture. A complete list of objectives can be found on the registration page for this course.

- Describe a few of the most common tools used in the process of confirming the diagnosis of autism
- Identify initial age and presentation for problematic feeding in autism
- Efficiently interpret developmental testing scores documented in developmental behavioral pediatrics consultation notes
- Identify the role of the pediatrician in initiating early intervention services and how to troubleshoot access
- Identify three Chicagoland resource sites to provide to patients with autism or developmental differences
- Discuss the concepts of ableism and neurodiversity
- Identify common contributing factors, pathways and trajectory of internalizing symptoms in autism spectrum disorder (ASD)
- Explain the behavioral treatment and support options that can assist in modifying symptoms that contribute to dysregulated behavior in ASD
- Identify effective strategies for clearly and concisely explaining various developmental disorders (such as autism spectrum disorder, ADHD, global developmental delay) to caregivers
- Discuss behavioral approaches to sleep disorders in autism
- Describe a few evidence-based therapies and supports for children with autism
- Identify the diagnostic process for seizures/epilepsy in patients with autism
