

Northwestern Lake Forest Pediatric Lunch Series

Northwestern Medicine Lake Forest Hospital

Noon - 1:00 p.m.

Lunch will be provided if approved by the hospital

This lecture is designed for healthcare professionals and will enable them to:

- Describe the new EPR guidelines regarding asthma control
- Recognize when to step up treatment plans for early asthma exacerbations
- Compare hearing screening and hearing protection protocols for patients at risk for or with known hearing loss (such as those with cochlear implants, cleft and craniofacial anomalies, tinnitus, musicians)
- Identify unique medical treatment needs for patients with cochlear implants or other unique hearing loss pathophysiology
- Develop an evaluation and treatment plan for patients presenting with tinnitus (unique sub-populations include those with pulsatile tinnitus, adolescents)
- Review the current food introduction recommendations and how these recommendations were developed
- Describe LEAP guidelines
- Recognize the potential early signs of anorexia nervosa (AN) and other eating disorders seen in adolescent patients
- Describe the pathophysiology of malnutrition seen in patients with anorexia nervosa (AN) or avoidant-restrictive food intake disorder (ARFID) and consider indications for hospitalization
- List the evidence-based methods of eating disorder treatment

Thursday, January 13, 2022 (Mandatory registration by January 6, 2022)

Early Introduction of Foods and Implications for Allergy Prevention – LIVE EVENT
