

OBJECTIVES:

- Recognize risk factors for pediatric neonatal stroke
- Discuss common presentation of pediatric neonatal stroke and factors that may lead to delay in recognition
- Review basic and advanced management strategies for pediatric stroke
- Discuss relevant factors that determine which immunocompromised children should receive vaccines
- Review current guidelines from ACIP, IDSA and AAP for vaccinating immunocompromised children
- Discuss, using a case-based format, the most frequently encountered scenarios for pediatric providers when vaccinating children with immunocompromised conditions
- Discuss routine motility diagnostic studies – manometry, electrogastrography (EGG)
- Discuss mechanisms of functional gastrointestinal disorders (FGID) – – Relation to motility – Relation outside the GI tract
- Describe the symptom questionnaire as an instrument towards defining patient phenotypes
- Describe indications for mechanical circulatory support in pediatric heart failure
- Describe an overview of the different types of ventricular assist devices and implant strategies in pediatrics
- Review the current pediatric ventricular assist device program at Lurie Children's
- Discuss basic facts on vaping / e cigarettes
- Identify the adverse health effects of e cigs / vaping on patients with asthma Advise teens on reasons why vaping is bad for them
- Identify the adverse health effects of e cigs / vaping on patients with asthma
- Advise teens on reasons why vaping is bad for them
- Describe the effects of primary and secondary exposure to marijuana
- Discuss the terminology in discussions about marijuana
- Discuss the Cannabis and allergen cross reactivity
- Discuss the normal pattern of growth for age and pubertal status
- Describe the common causes of growth delay in children
- Discuss the normal timing of puberty in children and when it is too late and too early
- Discuss the common causes and evaluation of early and late puberty
- Develop a heuristic approach to differential diagnosis when evaluating patients with non-infectious fever
- Differentiate distinct periodic fever syndromes on the basis of key clinical features
- Discuss the role of genetic testing in the diagnosis of periodic fevers

# Pediatric Pearls 2020 Webinar Series

Ann & Robert H. Lurie Children's Hospital of Chicago is pleased to offer once again its Webinar series. The Webinar series will be viewable in live format and on-demand as well. The program is designed for healthcare providers interested in learning about the latest pediatric treatments.

At Lurie Children's, we believe clinical excellence is just the beginning. That's why we strive to provide you easy access, the opportunity to interact with your peers and our experts and the ability to learn about recent advancements all at your convenience. Keeping you informed about the latest advances is just one way we can all help insure healthier futures for all children.

The most exciting part of this program is that we continue to provide you this service **FREE OF CHARGE.**

Details about each course, the presenters and registration information are included in this catalogue as well as on our website at [luriechildrens.org/webinars](http://luriechildrens.org/webinars).

Northwestern Medicine®  
Feinberg School of Medicine

# 2020 Pediatric Pearls Webinar Series

*An innovative concept  
in Pediatric Continuing  
Medical Education*

## Target Audience

This continuing medical education event is designed for pediatricians and all other healthcare clinicians treating the pediatric and adolescent population.

## Accreditation & Credit Designation:

The Northwestern University Feinberg School of Medicine is accredited by the Accreditation Council of Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

### Credit Designation Statement for the On-Demand Activity

The Northwestern University Feinberg School of Medicine designates this enduring material for a maximum of 7 *AMA PRA Category 1 Credit(s)™*. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

## Library of Archived Presentations:

Looking for extra CME credit? Be sure to visit [luriechildrens.org/cme](http://luriechildrens.org/cme) for a full listing of online courses available at no charge; some still carry CME credit.

## Registration Information:

To view any of these modules, please visit [luriechildrens.org/webinars](http://luriechildrens.org/webinars). You will be asked to login and recall your password. If it is your first time viewing a Lurie Children's webinar or registering for any of our programs (online or in the community), you will be asked to create a profile.

For questions or more information, call Claudia Cooper 312.227.7432

*Each program will launch live on the assigned date and time and will expire one year after the original date.*

### **Pediatric Stroke:** Clinical Recognition and Management

Jonathan Kurz, MD, PhD

January 28, 2020, Noon - 1 p.m.

### **No Shot in the Dark:** Immunizing Immunocompromised Children

Ravi Jhaveri, MD

February 25, 2020, Noon – 1 p.m.

### **Motility & Functional GI Disorders in Pediatrics**

- Assessment of Motility Disorders
- Mechanisms and Assessment of Functional GI Disorders
- Patient Assessment Tools to Define Co-morbidities Associated with Motility and Functional GI Disorders

John Fortunato, MD

March 12, 2020, 8 a.m. – 9 a.m.

*\*This session will be broken down into three shorter modules. All three will aired live completing 60 minutes of education. The participant will need to view all three modules in order to receive full credit.*

### **E-cigarettes, Vaping & Marijuana**

Cynthia Lerner, MD

April 15, 2020, Noon – 1 p.m.

### **What's New in Pediatric Heart Failure Devices**

Anna Joong, MD

May 7, 2020, 8 a.m. – 9 a.m.

### **Growth & Development in Children**

- Review on Growth
- Early Puberty
- Late Puberty

Reema Habiby, MD

May 12, 2020, 8 a.m. -9 a.m.

*\*This session will be broken down into three shorter modules. All three will aired live completing 60 minutes of education. The participant will need to view all three modules in order to receive full credit.*

### **Review of Periodic Fever Syndromes in Children**

Brian Nolan, MD

May 27, 2020, Noon – 1 p.m.

*All presenters are on staff at Lurie Children's and/or are current faculty members of Northwestern University Feinberg School of Medicine.*

## Course Director and Speaker:

### **Ravi Jhaveri, MD**

Physician Director, CME; Associate Division Head, Infectious Diseases; Professor of Pediatrics, Infectious Diseases

## Speakers:

### **John Fortunato, MD**

Director, Neurointestinal & Motility Program; Attending Physician, Gastroenterology, Hepatology, Nutrition; Professor of Pediatrics – Gastroenterology, Hepatology and Nutrition

### **Reema Habiby, MD**

Attending Physician, Endocrinology; Associate Professor of Pediatrics - Endocrinology

### **Anna Joong, MD**

Attending Physician, Cardiology; Assistant Professor of Pediatrics-Cardiology

### **Jonathan Kurz, MD, PhD**

Attending Physician, Neurology; Instructor of Pediatrics-Neurology

### **Cynthia Lerner, MD**

Attending Physician, Allergy & Immunology; Assistant Professor of Pediatrics- Allergy & Immunology

### **Brian Nolan, MD**

Attending Physician, Rheumatology; Assistant Professor of Pediatrics-Rheumatology
